CAREER OBJECTIVE

Motivated and curious Computer Science Engineering student with a strong interest in software development, web technologies, and emerging technologies. Skilled in Python and MS Word, with a willingness to learn new technologies and apply problem-solving skills to real-world projects. Seeking internship and entry-level opportunities to develop technical expertise and contribute effectively to a professional team.

EDUCATION

B.E. — Computer Science Engineering

Easwari Engineering College, Chennai | 2025 – Present

Higher Secondary Education

Sacred Heart Matric Hr. Sec. School, Chennai-70

TECHNICAL SKILLS

- **Programming:** Python
- **Web Technologies:** HTML, CSS
- **Tools:** MS Word, Visual Studio Code
- **Core Skills:** Problem Solving, Logical Thinking, Debugging
- **Currently Learning:** JavaScript, Node.js, Backend Development

PROJECTS

Car Rental Management System — HTML, CSS, JavaScript, Node.js

- Developed a web-based platform for browsing and managing rental cars.
- Implemented car listing and management functionality.
- Designed an intuitive interface for viewing car details and rental information.
- Added management operations for adding, updating, viewing, and deleting car records.
- Focused on creating a responsive and user-friendly experience.

E-Commerce Website — HTML, CSS, JavaScript, Node.js

- Designed an e-commerce platform for displaying and managing products.
- Created product listing and shopping-related interfaces.
- Implemented basic backend functionality using Node.js.
- Designed the application with a simple and user-friendly interface.

Personal Portfolio Website — HTML, CSS, JavaScript

- Created a personal portfolio website to showcase education, skills, projects, and achievements.
- Designed responsive sections for profile, projects, skills, and contact information.
- Integrated links to professional profiles and project demonstrations.

INTERNSHIP / EXPERIENCE

Technical Intern / Trainee — Trainex

September 2026

- Gained practical exposure to professional working environments.
- Worked with technical tasks and project-related activities.
- Improved problem-solving, communication, and teamwork skills.
- Learned to work with development tools and follow project requirements.

ACHIEVEMENTS & ACTIVITIES

- Participated in technical and academic projects.
- Practiced programming and problem-solving through coding exercises.
- Interested in exploring Artificial Intelligence, Web Development, and emerging technologies.
- Actively developing practical projects to strengthen software development skills.
